ON CALL INTERNATIONAL ANNOUNCES ENHANCED NATURAL DISASTER COVERAGE FOR ACADEMIC PLANS

Salem, NH – May 30, 2010 – On Call International, a leading provider of medical, security and travel assistance, announces an enhanced benefit to the natural disaster coverage available to the academic market. Specializing in worldwide emergency evacuations, On Call's customizable academic programs – essential for students and educators traveling abroad – now include coverage for travel home and lodging expenses if a natural disaster, such as an earthquake or tsunami, makes a traveler's location in their host country uninhabitable.

"Studying and teaching abroad can be some of the most rewarding and exciting experiences in a person's life, but recent unexpected events - such as massive earthquakes, clouds of volcanic ash and instances of political unrest – illustrate the importance of planning ahead and being prepared when traveling internationally," said Michael J. Kelly, president and CEO of On Call International. "Our enhanced natural disaster evacuation coverage for the academic market ensures that both students and faculty are covered to the fullest extent when traveling out of the country."

In addition to coverage for emergency medical and political evacuations in the case of sickness, injury or political unrest while traveling, On Call International covers up to \$100,000 for evacuation to the nearest safe haven in the case of a natural disaster. As a new enhancement, On Call now offers a combined limit of up to \$1,500 for economy airfare from the nearest safe haven to the traveler's home country, along with up to three days reasonable lodging if the traveler is delayed at the safe haven.

If evacuation becomes impractical due to dangerous conditions, On Call International will remain in contact with the covered traveler until evacuation becomes available or the natural disaster situation has passed. Throughout the duration of the ordeal, On Call will maintain continual contact with the student's family and school.

In addition to providing emergency evacuations, On Call International also provides medical and travel assistance services for the academic market. With one call, covered travelers have access to On Call's Global Response Center any time of the day, every day of the year, from anywhere in the world, which is equipped to respond to immediate or special care needs that might not be readily available at a traveler's current location.

Medical assistance services range from emergency prescription replacement to worldwide hospital and physician referrals and include medical case monitoring and dispatching a physician or specialist in emergencies. The company's 24/7 Nurse Helpline provides medical advice for those traveling and is staffed by U.S.-licensed nurses who assess patient symptoms, identify the urgency of a situation and recommend a plan of care. Other medical assistance services available for customized plans include emergency medical records assistance, coverage for family reunion, emergency return home, return of deceased remains, bereavement reunion and return of personal belongings.

On Call also provides emergency travel assistance for members, including travel companion assistance, lost or stolen document and credit card assistance, translation/interpreter services, lost luggage assistance, pre-travel destination information and a one-time free consultation with renowned international attorney.

Customizable academic plans through On Call International are available for schools, brokers and insurers to offer to students and faculty traveling away from home. For more information, please call 888.289.0567, email sales@oncallinternational.com or visit www.oncallinternational.com.
