ON CALL INTERNATIONAL IS AWARDED GOVERNMENT CONTRACT

Leading Travel Assistance Company Provides Services to Military Sealift Command

Salem, NH (November 17, 2011) – On Call International announced today that it has been awarded a government contract, providing worldwide medical evacuation services to the U.S. Navy's Military Sealift Command (MSC). The company will provide emergency aero medical evacuation and in-route medical support to advanced care mainland medical facilities for Government-owned and operated ships as well as units of MSC worldwide.

"We are honored to receive this contract with a large-scale governmental entity like MSC," said Mike Kelly, president and CEO of On Call International. "We look forward to serving MSC and our country by providing exceptional medical assistance care to its workforce of more than 9,000 people worldwide, 80 percent of whom serve at sea."

All MSC ships, unlike other U.S. Navy ships, are crewed by civilians. More than half of MSC's workforce consists of civil service mariners who are federal employees. The remainder includes commercial mariners, civil service personnel ashore and active-duty and reserve military members.

In virtually every corner of the world and at sea, On Call provides medical evacuation and travel assistance. The company's Global Response Center is available any time of the day, every day of the year, from anywhere in the world and is equipped to respond to immediate or special care needs that might not be readily available at a traveler's local medical facility, including emergency medical evacuation – which can cost up to \$100,000 internationally and is often not covered by regular medical insurance – and/or repatriation.

Additional medical assistance services provided by On Call International range from emergency prescription replacement to worldwide hospital and physician referral and include medical case monitoring and dispatching a physician or specialist in emergencies. The company's 24/7 Nurse Helpline provides medical advice for travelers and is staffed by U.S.-licensed nurses who assess patient symptoms, identify the urgency of a situation and recommend a plan of care.

For more information about On Call International and the full scope of services provided through a membership, visit <http://www.oncallinternational.com>.
